

FAASTeam, Portland FSDO presents:

New England Seaplane Safety Expo

Do you ever find yourself turning final while staring at a windshield full of whitecaps and then trying to recall the correct rough water technique? To avoid this unpleasant situation, come join us at this year's Seaplane Safety Expo where we will explain the importance of proper techniques during various phases of seaplane operations. Review fundamentals that will not only make it safer for you and your passengers but will also protect your equipment from excessive wear and damage. To register for this event, click on the link below.

Event Details

Sat, Jun 4, 2016 - 09:00 EST
Brunswick Executive Airport
8 Venture Ave
Brunswick, ME 04011

Select #: EA6568695
Representative Stephen C Williams

Directions: The seminar is being held in the Community Room located in the same building with Maine Technology Institute (MTI).

Driving: Enter the Brunswick Executive Airport grounds at the main entrance off Rt 24 Cooks Corner. Proceed down Admiral Fitch Ave. At the first stop sign by the P3 Orion turn left onto Pegasus St then a right onto Burbank and then a left onto Venture Avenue. Seaplane Seminar will be on your right. We will have signs out to help in locating the event.

Flying Landplane: Contact the FBO on 122.72 for aircraft parking instructions. At this writing the plan is to open an access gate to the ramp and provide shuttle service to the event.

Straight Float Aircraft: There are several options open to straight float equipped aircraft on the Andiscoggin River dependent on the wind direction. The river is fresh water but is still influenced by the tide down river from the dam. Tidal range is approximately 3 ft at the highway bridge. Contact Steve Williams cell 207- 350- 2120 for an update on water landing area and shoreline tieup. Land transportation will be provided to the seminar approximately a 7 minute ride.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
